

## english

Goodboards is an owner-managed and non-investor-determined board sport brand from the beautiful Ammersee (lake Ammer). We thrive for a long-term and positive development rather than a quick return.

We develop and manufacture our products in small series at a place where we are living with our children: in Europe. In our collection, we combine our ideas with the desires of our team drivers, dealers as well as customers. When it comes to our materials, we rely on highest quality to produce powerful and long-lasting boards. We only produce on advance order with an additional 20% for subsequent deliveries during the season. Our products are exclusively sold by competent specialty shops. With selective distribution, we ensure price stability as well as a balanced market. On more than 120 days a year, dealers and consumers are testing our boards and give us valuable feedback, which in turn inspires us to become even better.

What drives us is the deep belief in the original spirit of snowboarding and the joy of our satisfied customers.

## français

goodboards est une société allemande située sur une rive du splendide lac Ammersee près de Munich. Dirigée et gérée directement par ses propriétaires, elle est complètement indépendante de quelconques investisseurs. Ce qui importe pour nous, c'est un développement positif et durable et non pas un retour sur investissement rapide.

Nous développons et produisons en petites séries dans la région où nos enfants et nous-mêmes vivons - en Europe. Dans notre collection nous combinons nos idées avec les souhaits des rieurs de notre équipe, des concessionnaires et des utilisateurs finaux. Concernant les matériaux, nous jouons la carte de la qualité, ce qui nous permet de fabriquer des planches combinant performance et durabilité. Nous ne produisons que sur pré-commande, plus 20% pour quelques livraisons supplémentaires au cours de la saison. Nos produits sont vendus exclusivement en magasins spécialisés et compétents. Avec une distribution sélective, nous assurons la stabilité des prix et un équilibre sur le marché. Durant plus de 120 jours par an, nos détaillants et leurs clients testent nos planches. Leurs commentaires nous sont précieux.

Nous croyons en l'esprit du snowboard tel qu'il est depuis les origines de ce sport et nous réjouissons en voyant les sourires de satisfaction de nos clients.

## italiano

GOODBOARDS è un marchio tedesco gestito dai suoi fondatori e non da investitori - la nostra sede si trova all' "Ammersee" in Bavaria. Apprezziamo molto un lavoro in lungi termini e uno sviluppo positivo, piuttosto che un rapido guadagno. Noi sviluppiamo e produciamo in piccole serie in un posto dove viviamo noi e le nostre famiglie - in Europa. Nella nostra collezione uniamo le nostre idee con i desideri e proposte di team rider, rivenditori e clienti. I materiali con cui lavoriamo sono di alta qualità per produrre tavole potenti e robuste. Produciamo solo le quantità di preordine più un 20% di magazzino per le consegne durante la stagione. I nostri prodotti si trovano esclusivamente in negozi specializzati e qualificati. Con una distribuzione selettiva assicuriamo stabilità di prezzi e l'equilibrio sul mercato. Organizziamo più di 120 giorni test all'anno dove negozi e utenti finali provano le nostre tavole e ci danno un prezioso feedback - una spinta per noi di diventare ancora più bravi. Quello che ci guida e ispira: la fede nello spirito originale di tutti i boardsport e la gioia dei nostri clienti soddisfatti.

## deutsch

goodboards ist eine inhabergeführte und nicht investorenbestimmte Boardsportmarke vom schönen Ammersee. Für uns zählt die langfristige und positive Entwicklung, anstatt die schnelle Rendite.

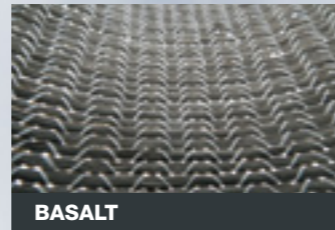

Wir entwickeln und produzieren in kleinen Serien dort, wo wir und unsere Kinder leben - in Europa. In unserer Kollektion kombinieren wir unsere Ideen mit den Wünschen von Teamfahrern, Händlern und Kunden. Bei den Materialien setzen wir auf höchste Qualität, um leistungsstarke und langlebige Boards zu fertigen. Wir fertigen nur auf Vorbestellung, plus 20% für Nachlieferungen während der Saison. Unsere Produkte werden ausschließlich über kompetente Fachgeschäfte verkauft. Mit einem selektiven Vertrieb sorgen wir für Preisstabilität und Balance auf dem Markt. An mehr als 120 Tagen pro Jahr, testen Händler und Endverbraucher unsere Boards und geben uns wertvolles Feedback - was uns wiederum inspiriert noch besser zu werden.

Was uns antreibt: der Glaube an den ursprünglichen Spirit des Snowboardens und die Freude unserer zufriedenen Kunden.
