

# Premium Flex Wakeboards 2018

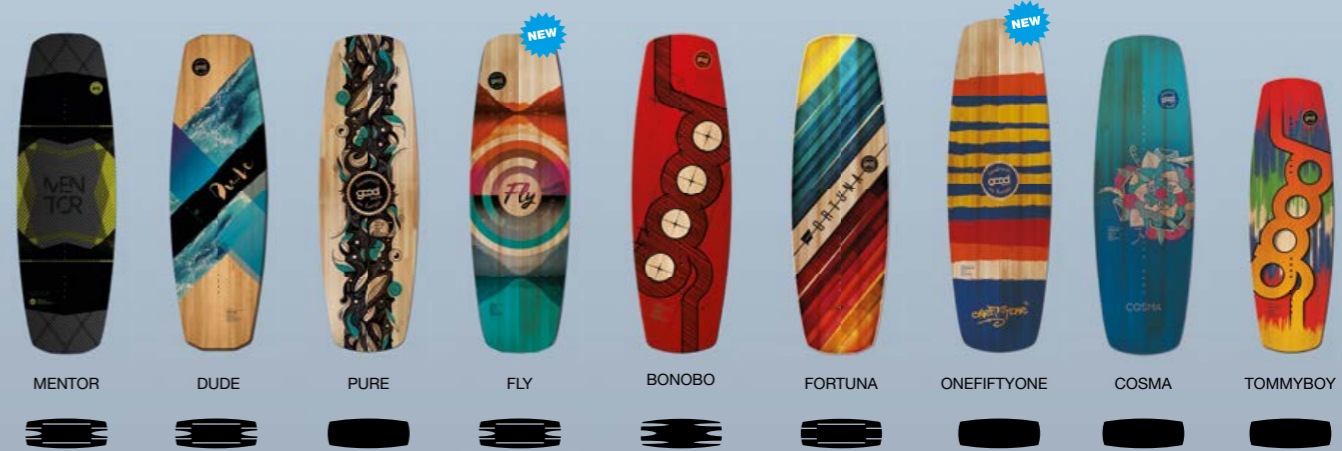

**new team rider**  
*Vanessa Weinbauer -  
 junior world champion*

Goodboards is an owner-managed company. It is a boardsport brand from beautiful Ammersee (near Munich). We are looking at a longterm and stable development rather than just at a quick return on investment. We develop and manufacture our products in small series. We do this where we live with our families: in Europe. We combine our ideas based on the wishes of our team, dealers and customers. We use the highest quality materials to produce powerful and long-lasting boards. Our production is based on pre-orders with an additional 20 % for subsequent deliveries throughout the season. Our products are sold exclusively by competent specialized shops. With a selective product line we ensure stable prices and avoid mass distribution. Dealers and customers test our boards for more than 120 days a year. They provide us with valuable feedback which inspires us to improve further. What drives us is the profound belief in the original spirit of wakeboarding and our customer's enthusiasm in our products.

**onefiftyone** **NEW**

base

The new Onefiftyone is a long and soft board with narrow stance. Especially technically experienced wakeboarders discover completely new possibilities on the features with this length of 151 cm. Thanks to the long edge, it is very easy to build up enormous pressure for high airtricks. All landings are very gentle and safer than ever before. Not only Jibbers, but also Cruisers, have a lot of fun with the Onefiftyone.
